Contents

Chapter 1 : Introduction **1**

- 1.1 Background of the study 1
 - 1.1.1 Physical structure of the Brahmaputra 1
 - 1.1.2 Physical environment of the Brahmaputra basin 2
- 1.2 Floodplain as an ecological zone 4
- 1.3 Review of the previous studies 6
- 1.4 Objectives of the study 7
- 1.5 Outline of the book 7

Chapter 2 : Rainfall Variation and Rice Production in the Ganges-Brahmaputra Basin **9**

- 2.1 Introduction 9
- 2.2 Study area and methodology 12
 - 2.2.1 Study area 12
 - 2.2.2 Data and methodology 13
- 2.3 Rainfall effect at the state level 16
- 2.4 Rainfall effect at the district level 17
- 2.5 Non-stationarity in the rainfall – rice production relationship 19
- 2.6 Discussion 21
- 2.7 Conclusions 25

Chapter 3 : Floods and Rice Production in Bangladesh **27**

- 3.1 Introduction 27
- 3.2 Rice cropping system and methodology 28
 - 3.2.1 Rice cropping system in Bangladesh 28
 - 3.2.2 Data and methodology 30
- 3.3 Inter-annual variation of rice cultivation and floods 31
 - 3.3.1 Variations of rice production 31
 - 3.3.2 Variations of rice cultivated area 32
 - 3.3.3 Variations of rice yield 35
- 3.4 Farmers' response in severe flood years 36
- 3.5 Conclusions 37

Chapter 4 : Rice-based Cropping System of the Ahom **39**

- 4.1 Introduction 39
- 4.2 Study area 43

4.2.1 Ecological condition	43
4.2.2 People of the study village	44
4.2.3 History of the study village	44
4.2.4 Rice cultivation in the study village	47
4.3 Land use and land holding structure	48
4.4 Practice of rice cultivation	52
4.4.1 Cultivation practice of Sali rice	52
4.4.2 Cultivation practices of Ahu and Bao rice	55
4.5 Rice variety and its utilization	57
4.6 Discussion	61
4.7 Conclusions	64

Chapter 5 : Rural Hydrology and its Implication to Environmental Changes in the Brahmaputra Floodplain **67**

5.1 Introduction	67
5.2 Rainfall variation and rice production at the state level	69
5.3 Rainfall variation and rice cultivation at the village level	71
5.3.1 Monsoon rainfall variation	71
5.3.2 Hydrological environment in paddy fields	72
5.3.3 Influence of rainfall variation on rice cultivation	76
5.4 Historical changes of hydrological environment and rice cropping pattern	81
5.4.1 Changes in hydrological environment	81
5.4.2 Changes of cropping pattern and its technological background	85
5.4.3 Changes in landholding pattern	88
5.5 Discussion	91
5.6 Conclusions	94

Chapter 6 : Discussions and Conclusion **95**

6.1 General discussions	95
6.1.1 Summary of the previous chapters	95
6.1.2 Rice cropping system of the Brahmaputra floodplain zone	96
6.1.3 Climate change and floodplain rice cultivation	99
6.2 Conclusion	101
6.3 Significance of the study	102
